

Aluminum Lightning Protection Cable

Product Description

Annealed rope lay stranded aluminum conductors. Class I and class II.

Application

Used in lightning protection and grounding systems. Rope lay construction allows for greater flexibility.

Product Data

Number of Strands	Strand Size	Cross-Sectional Area in Circular Mils	Nominal Diameter (Inches)	Weight Per 1000 Ft. (lbs)
24	14	98,500	1/2"	95
28	14	115,000	1/2"	115
28	.0865	211,500	5/8"	202
19	.1055	211,600	5/8"	199
37	.0756	211,600	5/8"	199

* Minimum order quantities may apply. Other sizes and constructions available.
