

PVC Telecommunications Ground Wire

Product Description

Manufactured from annealed, solid copper conductors, providing high conductivity and flexibility.

- PVC insulation is available in a wide range of colors: black, beige, olive, gray, and green; on coils, spools, coil in boxes, and reels.
- Standard shipments in 200 ft., 300 ft., and 500 ft. lengths; other lengths available upon request

Application

These products are intended for use in making ground connections in customer premise or local area network (LAN) wiring.

Product Data

Size (AWG)	Insulation Thickness (inches)	Diameter (inches)	Weight Per 1000 Ft. (lbs.)
14	.020	.104	16.0
12	.023	.127	25.0
10	.024	.150	37.0
6	.031	.224	91.0
6 (BARE)	N/A	.162	79.5

Specification Data

ASTM B-3 Soft or annealed copper wire

- Meets all U.L. listing requirements for protection and grounding conductors
- Intended for use in accordance with article 800-31 (NEC)
